Overview

Key Features

- The H801 protection: filters at least 95% of solid and liquid aerosol's that do not contain oil.
- The nose clip is metallic which is easy to shape around the nose.
- Twin, latex-free, straps are elasticated fabric, fully welded to the mask. These are sweat absorbent and provide an excellent degree of tightness.
- High performing, humidity-resistant & low breathing resistance filter media
- Lightweight design to reduce wearers' fatigue
- Easy to wear with safety spectacles, goggles, giving an excellent field of vision: comfort and versatility means greater efficiency on the job.
- The shell incorporates an arc shaped ribbing for anti deformation.
- Existing with high performance exhalation valve to breathe out easily
