

HOSE CONNECTION VACUUM BREAKER

MODEL: EVB-80

Size: 3/4" (20mm) Hose Thread

EVB-80 is a vacuum breaker specially made to attach with portable hoses, hose threaded bib taps and other faucets. Designed to prevent the flow of contaminated water back into the potable water supply, this device requires no plumbing changes, and screws directly onto a bib tap and faucets. EVB-80 can be used on a wide variety of installations, such as service sinks, swimming pools, photo developing tanks, laundry tubs, wash racks, dairy barns, marinas and general outside gardening uses.

Features

- Brass body
- Stainless steel working parts
- Durable rubber diaphragm and sealing washer
- Thermoplastic disc for consistent positive seating

Option: Chrome Plated Available

Furnished with break-away set screw to provide a tamper-resistant installation. Standardly equipped to allow bib tap to be drained.

Inlet Connection: 3/4" (20mm) standard female hose thread

Outlet Connection: 3/4" (20mm) standard male hose thread

Maximum Pressure: 125psi (8.6 bar)

Maximum Temperature: 180°F (82°C)
