

KITCHEN MIXERS

Herz taps

QUALITY PRODUCT AT AFFORDABLE PRICES

Herz have a simple vision – to produce kitchen and bathroom fittings that are beautifully engineered, easy to use, contemporary, functional, and affordable.

We look to identify the trends and requirements of our marketplace, and develop product solutions accordingly.

The quality of our products is endorsed by all major European certification – with many products now having WRAS (Water Regulatory Authority Scheme) approval.

ECOLOGICALLY MINDED

All Herz kitchen and bathroom mixers have been designed to accommodate a water-saving aerator set that reduces the flow of water without you noticing it !!

So you can wash your dishes, cups, glasses – and yourself – knowing that you are not just running good water away down the drains unnecessarily.

Good for the environment, and good for your pocket !

EXPERIENCE AND PASSION

Originally named Gebauer and Lehrner, the Herz business was founded in 1896 - producing flow valves for water and gas supply in Vienna. By 1914, the business had a portfolio of several thousand products, and employed over 300 staff.

After many years of successful trading, and with huge growth in worldwide sales, the 1970's saw the company re-named as HERZ (Austrian for heart) - reflecting the business' ethos of passion for quality.

CERTIFICATION MARK

WRAS

As well as holding all major European accreditation for quality in the production of our taps, we have WRAS (Water Regulatory Authority Scheme) approval for many of our products. This reflects our commitment to providing 'Quality Product at Affordable Prices', and is further reason to have peace of mind when you purchase a product from the Herz Tap Range.

HERZ TAPS COME WITH A 6 YEAR GUARANTEE.

CONFIDENCE IN OUR PRODUCTS COMES FROM FOUR ASPECTS:

1. Thorough design and development processes
 2. Manufacturing with quality materials
 3. Decades of experience with quality materials
 4. Tens of thousands of units sold in over 75 countries
- Full details of our Guarantee can be obtained by contacting:
taps@herzvalves.com

ENVIRONMENTALLY AWARE

At Herz, we pride ourselves in acknowledging that we have a social responsibility to the environment, and then striving to ensure we meet this responsibility through prudent use of energy and resources. We use environmentally friendly packaging and promotional materials. We strive to achieve the most environmentally-friendly production methods. And the emphasis on producing product that achieves functionality, whilst offering water consumption savings and energy efficiency, is at the very heart of the business.

Kitchen mixers

Infinity

INFINITY kitchen mixers

The Infinity series of Kitchen Mixers, with their modern lines and easy operation, sit beautifully in any almost any kitchen setting. A combination of straight and curved lines combine to provide a sophisticated and contemporary appearance.

As well as meeting the desire for aesthetic appeal, Infinity kitchen mixers provide complete peace of mind as to their ongoing functionality - with the whole of the design series having WRAS approval.

Flexi Hoses

UH01175 – LOW PRESSURE
version c/w 3 no. 3/8" BSP Flexi
Hoses

Kitchen mixers

Fresh

FRESH kitchen mixers

The Fresh series of kitchen mixers has been designed around a combination of sleek tubular spouts, and sturdy cylindrical bodies. The range is modern, and reflective of current trends. Variations in the range include mixers that can rotate around the axis of the body to give additional height clearance under the spout if required; a mixer with a retractable pull-out spray function; and a thermostatic wall mounted mixer for total control and safety of water temperature.

Fresh f21

Swivel spout, side lever mixer
Traditional high curved spout,
with modern side lever that
offers the flexibility of RH or LH
operation

B00133 – Mixer c/w 1/2" BSP
Flexi Hoses

UH01137 – LOW PRESSURE

Fresh f23

Wall mounted, Swivel spout,
THERMOSTATIC mixer

Curved spout on a thermostatic tubular bar mixer. Modern, sleek, and with total temperature control.

B00235 – Mixer c/w wall plates.

19110

2 x 6l/min Eco aerators, and 1
x 9l/min water flow regulator.

19110 – Eco Regulator Set

All Herz mixers have been designed to accommodate Eco Flow Restrictors. Easy to fit, and save on water usage.

Note: Set includes 2 ECO aerators with water flow 6l/min and water flow regulator with water flow of 9 l/minute.

What is WRAS Approval ?

WRAS product approval demonstrates full compliance with requirements of the Water Supply (Water Fittings) Regulations or Scottish Byelaws, provided the fitting is installed according to any conditions given with the approval.

It is the easiest way to demonstrate compliance as it is granted directly by representatives of the water suppliers, and is therefore accepted as fit for purpose by every water supplier in the UK.

As well as testing the quality of the product to ensure it is 'of an appropriate quality and standard' by testing it through 1,00's of cycles of operation, the testing also requires that the fitting should not cause waste, misuse, undue consumption, or contamination of the water supply.

Whilst it is not a necessity to fit a WRAS approved product in your own home, it is an endorsement that may be important to you.

We would, however, assure you that all Herz products are manufactured to the same exacting standards, and are all covered by the same guarantee.
